

Most seats in the theatre have a consistent amount of legroom. If you are tall, you may find this space a little restrictive and we would advise that you book a seat from the list below where there is a little more space. If you are especially tall and want to ensure you have a comfortable visit, please give our box office team a call before booking so we can advise you on which seating will be the most suitable.

The seats listed below as having 'restricted' legroom, will provide very limited space for most people, regardless of their height.
